(Proposal for alterations and additions to an existing 2,030 square foot, one-story, single-family residence and a detached 366 square foot garage on a 32,194 square foot lot located in the Hillside Design District. The proposal includes a total of 334 square feet of one-story additions to the residence and alterations and additions to the existing garage to result in a new 498 square foot attached two-car garage. **(Review of Phase I Archeological Resources Report prepared by David Stone, Stone Archaeological Consulting.)**

Staff comments: Susan Gantz, Planning Technician, stated that Dr. Glassow reviewed the report and concluded that the archaeological investigation supports the report's conclusions and recommendations that, as the proposed project would not have the potential to result in significant impacts on either prehistoric or historic archaeological resources, no mitigation measures are required, and that the standard condition regarding the discovery of unanticipated archeological resources shall be reproduced on the plans prior to building permit issuance.

**Motion: To accept the report as presented.**

Action: Boucher/La Voie, 8/0/0. Motion carried.

Public comment opened at 2:11 p.m. and reopened at 2:43 p.m.

The following people spoke in favor of the project in general, not necessarily the proposal before the Commission:

Eric Kelley, local business owner.

Larry Feinberg, Santa Barbara Museum of Art Director.

Eik Kahng, Santa Barbara Museum of Art Chief Curator.

Ginny Brush, (City Arts Advisory Committee's) Visual Arts in Public Spaces Committee, provided a letter as well.

Steve Cushman, Chamber of Commerce President.

Lynne Tahmisian, La Arcada Representative.

The following people expressed concerns:

Robert Burke, local resident – financing source for the project, purview of Commission on legality of funding for the project, and people issues versus plans/concrete.

Mary Louise Days, local historian – removal of existing Eucalyptus trees and cluttering of permanent objects obscuring the space.

Kellam de Forest, local resident – celebration of historic Faulkner Gallery building, use of a water feature, and preservation of existing trees.

Eric Friedman, City Library Advisory Board Chair – return to historic design, and Eucalyptus tree removal to maximize and make space more usable.

W. Scott Burns, local resident – left a note commenting on the need for better lighting.

Frank Goss, local resident – large Eucalyptus trees as fire hazards and safety issues.

Public comment closed at 2:27 p.m. and reclosed at 2:44 p.m.

**Motion: Continued indefinitely with the following comments:**

1. Renovation of the Library Plaza is long overdue.
2. The lack of formality to the Faulkner Gallery is perplexing.
3. The Faulkner Gallery should be celebrated.
4. Original library entrance should not have any added art placed in front of it.
5. Better visibility of the original library entrance is paramount.
6. Pay attention to the balance of opening up the visibility of the original library entrance and the blank walls.
7. Explore visibility of the whole library building.
8. Keep planted and built items in the space low and sight-lines open.
9. Provide a demolition and tree removal plan.
10. Proposed landscape plan is not compliant with El Pueblo Viejo Guidelines and is too contemporary.
11. The majority of the Commission would like the applicant to continue to study the retention of the Eucalyptus trees. Skyline trees are important in the downtown area.
12. Lighting fixture style should be exemplary for this space.
13. Original Faulkner fountains should be looked at as an element to be reimplemented.
14. Safety of the pool or fountain needs to be considered.

Action: Boucher/La Voie, 8/0/0. Motion carried.

Public comment opened at 3:15 p.m. and, as no one wished to speak, it was closed.

2. Continue processing this project through departmental review, specially the Fire Department.
3. Provide landscaping at the north-south paseo as it runs from the existing alley out to State Street.
4. Study a different architectural solution with respect to the garages. Although the proposed design is in conformity with El Pueblo Viejo Guidelines, it is not within the context.
